

## MASCOT CONTEST RULES FOR EUROPEAN FENCING CHAMPIONSHIP 2025

The Organising Committee of the Junior and Cadet Italian Championships (24-26 May 2024) and of the Senior European Fencing Championships (June 2025) will choose the official mascot of the latter through an ideas contest held with the participation of the students of the State Artistic High School Barabino Klee.

The proposals received by the LOC for the representation of the mascot of the European Fencing Championships are 7 in total.

In the first phase they will be published on the LOC's social accounts and can be voted by the public, via the Facebook page or the Instagram profile activated by the Organising Committee to promote the two major events of 2024 and 2025.

The evaluation period will run from Friday March 15th to Saturday March 30th at 6pm. The three most clicked mascots will enter the final phase where they will be voted by the quality judges: each member, from the regional institutional and sports authorities to the members of the LOC through to the presidents of the Ligurian fencing clubs, will assign a score of 5 for the favorite mascot, 3 for the second and one for the third.
